ALL AMERICA SELECTIONS for 1949

SNAPDRAGON—TETRAPLOID SPRING FLOWERING

PAN-AMERICAN PINK. Deep rose-pink. Good indoors for a spring crop or for summer bloom outside. The first tetraploid hybrid in any class. ½ Tr. Pkt., (1000 seeds).....\$1.75

TETRA YELLOW. Huge spikes and large fringed florets. Bright yellow. For indoor blooming in May sow in November. Makes the diploids look tiny. ½ Tr. Pkt., (1000 seeds).....80c

TETRA MIXED. The most satisfactory outdoor Snapdragon offered today, a vigorous grower, almost never "crippled" with rust. Florets are huge, mistly ruffled, and stay on the stem so that 12" flower spikes are usual. Many beautiful colors and combinations, some never before seen in Snaps.

Tr. Pkt.....50c 1/16 oz.....80c 1/8 oz.....\$1.50 1/4 oz.....\$2.50 1 oz.....\$8.50

IPOMEA (Morning Glory)—BLUE STAR

An entirely new color in Giant Morning Glories, a distinct shade of clear sky blue accentuated by the five deeper blue midribs to form an attractive star, a truly outstanding and most attractive shade. Flowers are of great size, being larger and earlier than the ever popular Clarke's strain of Heavenly Blue.

Tr. Pkt.....25c 1/4 oz.....50c 1 oz.....\$1.75

THE NEW SUPREME—LARKSPURS

The ideal cutflower strain. An entirely new strain of the popular Giant Imperial Larkspur, offering five entirely new colors and a white which is greatly improved over any existing variety in use to-day. These colors are not just slight variations from existing varieties, but are new tones, absolutely distinct and different. Plants grow very tall with a magnificent long and heavy main spike closely packed with fully double flowers, with very wide petals.

DARK BLUE SUPREME. Rich violet purple

LILAC SUPREME. Clear lilac

PINK SUPREME. Clear rose-pink

ROSE SUPREME. Pure deep rose

SALMON SUPREME. A real salmon

WHITE SUPREME. A pure snow-white.

FORMULA MIXTURE. Above 6 colors

MARIGOLD (Dwarf French Double)—ELDORADO

A live, pleasing canary yellow, tinted slightly deeper toward the center of the flower. Grand for borders and edging, the early profusion of clear, full double blooms on uniform plants maintain their form throughout a long blooming season. Plants grow about 10 inches in height. Prior to the introduction of Eldorado, the dwarf class of Marigold was without the canary yellow color.

Tr. Pkt.....25c 1/4 oz.....50c 1 oz.....\$1.75

MARIGOLD (French Double) MINIATURE—SPRY HYBRIDS

Here is a refreshingly new hybrid strain of Miniature Marigolds. An abundance of varied flower formations in new and unusual combinations of yellow, mahogany, scarlet and orange, are to be found in this strain, thus providing an endless source of delight and interest. Each plant is a symmetrical specimen of neat compact, uniform growth.

Tr. Pkt.....25c 1/4 oz.....50c 1 oz.....\$1.75

TWO NEW—COLUMN STOCKS

WHITE GIANT. This remarkable new Giant Column Stock has been specifically bred and selected for the cut flower grower. This seems to be the stock for which the growers have been waiting. White Giant has lots of height, an enormous flower spike closely packed with fully double individual florets, 2¼ to 2½ inches in diameter. The flowers are a pure, glistening white, and do not show any green towards the centers. The uniformity of type, robust habit, high percentage of doubles, clear pure color, definitely places White Giant at the top of the list.

PINK GIANT. The outstanding features of this new Column Stock are the long stiff stems, enormous flower spikes, and clear bright rose pink color. Notably the color is evenly distributed over the very double flowers, giving them a sparkle, particularly noticeable under artificial light.

and RECENT NOVELTIES

PETUNIA HYBRIDA NANA COMPACTA—GLOWING ROSE

The intense brilliance of this new Petunia makes it the most startling of all the dwarf bedding varieties. Flowers are much larger than Celestial Rose and of an even shade, holding its intense color right up until the last flowers. Plants are of the same well-rounded mound shape as Celestial Rose and of an unusual uniformity, at no time becoming unshapely.

Tr. Pkt. 50c 1/8 oz. \$1.50 1/4 oz. \$2.75 1 oz. \$10.00

PETUNIA HYBRIDA NANA COMPACTA—SNOWBALL IMPROVED

This compact white Petunia is the result of many years work to obtain a lower growing, more compact strain of Snowball. The well formed compact plants retain their shape throughout the entire growing season. Clear throated, well rounded blooms nearly 3 inches in diameter, grow profusely to produce the finest mass effect one could desire.

Tr. Pkt. 50c 1/8 oz. \$1.50 1/4 oz. \$2.75 1 oz. \$10.00

PETUNIA NEW DWARF RUFFLED—GARDEN GIANTS

The most suitable large-flowered Ruffled Petunia for the home garden. They start flowering when the plants are extremely small and continue their gorgeous display of large ruffled flowers all through the summer. The plants uniformly develop into well-rounded mounds 12-15 in. high and bloom continuously in a wide variety of bright color combinations.

Tr. Pkt. \$1.00 1/64 oz. \$1.75 1/32 oz. \$3.25 1/16 oz. \$5.50

PETUNIA—EXTRA DWARF GIANTS OF CALIFORNIA

This strain has been bred to fill the need for a truly dwarf pot Petunia. It is by far the best strain for this purpose in existence to-day. The color range has also been greatly improved and brightened.

1/2 Tr. Pkt. 75c Tr. Pkt. \$1.50 1/64 oz. \$3.25 1/32 oz. \$6.00 1/16 oz. \$11.00

PETUNIA RUFFLED NANA COMPACTA—LITTLE GIANTS

A small, compact plant about 12 in. tall, completely covered with blooms over a longer season than most other varieties of Petunias. Fine combination of colors, light and dark shades well-balanced; medium-sized California Giant type flowers about 2" across. Fine for bedding and combination work.

VERBENA—BUSH TYPE (Giant Flowering)

SALMON QUEEN. A most pleasing shade of bright salmon-pink. The unique growth of the plants make an even, uniform band or border closely covered with flowers over a long blooming season. The broad, flat-topped, bushy plants are about 8-10 in. high and 12-15 in. across, with the flower heads practically touching each other.

STARLIGHT. The latest variety of the bush type Verbenas. Bright mid-blue flowers with a creamy white eye.
